Book I. Prop. XXXVI. Theor. *Parallelograms (*  *and*  *) on equal bases, and between the same parallels, are equal.*

Draw and

= =

(pr. I.34, hyp.);

∴ = and ∥ ;

∴ = and ∥ (pr. I.33)

and therefore  is a parallelogram;

but  =  =  (pr. I.35)

∴  =  (ax. I).
