

Book I. Prop. XIX. Theor. *If*

in any triangle  *one angle*  *be greater than another*  *the side*  *which is opposite to the greater angle, is greater than the side*  *opposite the less.*

If  be not greater than 
then must
 = or < .

If  =  then
 =  (pr. I.5);
which is contrary to the hypothesis.

 is not less than ; for if it
were,

 <  (pr. I.18)
which is contrary to the hypothesis:

$\therefore$  > .
